

Online Referrals for Post-Overdose Outreach Programs

Presented by Stephen Murray, MPH, NRP
Community Implementation Specialist
Boston Medical Center

1

Objectives

- + Learn about how other post overdose programs are using online referral tools to increase their outreach efforts beyond 911 calls
- + Understand the steps to implement this at your own agency

2

What is the process to implement?

- + Indicate your interest to me during the implementation menu selection
- + Connect us with your project lead and agency IT specialist
- + We will work together to design the form to meet your agency needs
- + Your IT specialist will design and create it
- + We will run some mock tests to make sure it works, and then generate QR codes so that they can be added to your business cards or fliers for families
